**COVID-19 Testing: “false positives almost half the time”:** [Dr. Barbara Yafee](#), Ontario’s Associate Chief Medical Officer of Health, Communicable and Infectious Diseases, stated the following at a July 30 press conference when asked about not making COVID-19 testing mandatory for teachers: “If you test somebody today, you only know if they’re infected today, and in fact if you’re testing in a population that doesn’t have very much COVID, you’ll get false positives almost half the time. That is, the person actually doesn’t have COVID, they have something else, they may have nothing. So it will just complicate the picture. . . . Testing will not actually achieve anything other than take resources away from other places they need to be.” Her answer starts at 36:30: “Coronavirus: Ontario elementary students to return full-time, hybrid learning for most high schools” | Global News | <https://www.youtube.com/watch?v=bFMt9vedB1w&app=desktop>

**Anthony Fauci (Director of U.S. National Institute of Allergy and Infectious Diseases) contradicted the extreme predictions back in March:** “In another article in the *Journal*, Guan et al. report mortality of 1.4% among 1099 patients with laboratory-confirmed Covid-19; these patients had a wide spectrum of disease severity. If one assumes that the number of asymptomatic or minimally symptomatic cases is several times as high as the number of reported cases, **the case fatality rate may be considerably less than 1%**. This suggests that **the overall clinical consequences of Covid-19 may ultimately be more akin to those of a severe seasonal influenza (which has a case fatality rate of approximately 0.1%)** or a pandemic influenza (similar to those in 1957 and 1968) rather than a disease similar to SARS or MERS, which have had case fatality rates of 9 to 10% and 36%, respectively.” *New England Journal of Medicine*, March 26, 2020, “Covid-19 — Navigating the Uncharted” By Anthony S. Fauci, M.D., et al. <https://www.nejm.org/doi/full/10.1056/NEJMe2002387>

**The justifications for going cashless are weak. See the CDC’s statements about objects and surfaces:** “The Centers for Disease Control updated its guidance earlier this month to emphasize the coronavirus does not spread easily on surfaces, focusing more on human-to-human transmission. . . . Touching surfaces and objects is now listed under the heading, “The virus does not spread easily in other ways.” (May 22, 2020: <https://www.cbsnews.com/news/cdc-coronavirus-doesnt-spread-easily-on-surfaces-transmission-before-symptoms/>). Then the CDC edited their site again and issued a statement: “. . . may be possible that a person can get COVID-19 by touching a surface or object that has the virus on it and then touching their own mouth, nose, or possibly their eyes, **but this isn’t thought to be the main way the virus spreads**” (May 22: <https://www.cdc.gov/media/releases/2020/s0522-cdc-updates-covid-transmission.html>). The same statement: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/how-covid-spreads.html>. Also, read: “Am I at risk for COVID-19 from mail, packages or products? . . . **Although the virus can survive for a short period on some surfaces, it is unlikely to be spread from domestic or international mail, products or packaging.** . . .” (<https://www.cdc.gov/coronavirus/2019-ncov/faq.html>) (links accessed July 23, 2020).

**CDC Statement on Children:** “What is the risk of my child becoming sick with COVID-19? Based on available evidence, children do not appear to be at higher risk for COVID-19 than adults. **While some children and infants have been sick with COVID-19, adults make up most of the known cases to date. . . .**” <https://www.cdc.gov/coronavirus/2019-ncov/faq.html> (accessed July 23, 2020).

**71.5% of the deaths in Canada attributed to COVID-19 are from persons age 80+, only 1 death under the age of 19** View the chart for the number of deceased: **Ages: 0-19: 1 death (0.0% of deaths)**, 20-29: 9 deaths (0.1% of deaths), 30-39: 15 deaths (0.2%), 40-49: 49 deaths (0.6%), 50-59: 208 deaths (2.3%), **60-69: 635 deaths (7.1%), 70-79: 1,616 deaths (18.2%), 80+: 6,364 deaths (71.5%)** (“Figure 4. Age and gender distribution of COVID-19 cases” in Canada as of August 2, 2020: <https://health-infobase.canada.ca/covid-19/epidemiological-summary-covid-19-cases.html>)

**Age Ranges for Hospitalizations and ICU** Hospitalized (11,101) (from the start to August 2, 2020). Ages: 0-19: 131 (1.2%), 20-29: 324 (2.9%), 30-39: 510 (4.6%), 40-49: 821 (7.4%), 50-59: 1,531 (13.8%), 60-69: 1,859 (16.8%), 70-79: 2,272 (20.5%), 80+: 3,642 (32.8%). So the number of hospitalizations labeled as “COVID-19” climbs steadily based on age. Compare the **number of ICU [Intensive Care Unit] admissions:** “Admitted to ICU” (Intensive Care Unit) (2,253). Ages: 0-19: 26 (1.2%), 20-29: 84 (3.7%), 30-39: 111 (4.9%), 40-49: 222 (9.9%), 50-59: 469 (20.8%), 60-69: 552 (24.5%), **70-79: 522 (23.2%), 80+: 265 (11.8%)**. It seems that many of those over 80 were not admitted to the ICU. Possibly this reflects the new healthcare rationing/triage policies. (“Figure 4. Age and gender distribution of COVID-19 cases” in Canada as of August 2, 2020: <https://health-infobase.canada.ca/covid-19/epidemiological-summary-covid-19-cases.html>)

**Most People Diagnosed with COVID-19 have Mild Symptoms:** “Are the symptoms of COVID-19 different in children than in adults? No. The symptoms of COVID-19 are similar in children and adults. COVID-19 can look different in different people. **For many people, being sick with COVID-19 would be a little bit like having the flu. People can get a fever, cough, or have a hard time taking deep breaths. Most people who have gotten COVID-19 have not gotten very sick. Only a small group of people who get it have had more serious problems. . . .**” (accessed July 23, 2020) (<https://www.cdc.gov/coronavirus/2019-ncov/faq.html>).

**The more testing, the more “cases”** (symptoms of all kinds or positive tests). A lot of resources are put into testing even though most people have only mild symptoms. As of August 7, 2020, the number of people tested in Canada (4,319,172) keeps climbing, so the number of “cases” keeps climbing. The government keeps counting the total number of cases since January (118,561) even though **103,106 are “recovered”** and the number of **“active cases” is only 6,489** (<https://www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection.html>)

**Canada: Cases since January: 118,561. Active cases: 6,489** (August 7, 2020)

Quebec: 60,133. Active: 3,560

Ontario: 39,809. Active: 1,120

Alberta: 11,296. Active: 1,107

BC: 3,881. Active: 371

Saskatchewan: 1,387. Active: 204

Nova Scotia: 1,071. Active: 2

Manitoba: 474. Active: 118

Newfoundland: 266. Active: 0

New Brunswick: 176. Active: 6

PEI: 36. Active: 0

Yukon: 14. Active: 1

Northwest Territories: 5. Active: 0

Nunavut: 0. Active: 0

(<https://www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection.html>)

**Official number of deaths “related to COVID-19”** As of August 7, 2020: “Count of deaths related to COVID-19”: Canada: **8,966**. By province: **Quebec: 5,687, Ontario: 2,783, Alberta: 205, BC: 195, Nova Scotia: 64, Saskatchewan: 19, Manitoba: 8, Newfoundland: 3, New Brunswick: 2, PEI: 0, Yukon: 0, Northwest Territories: 0, Nunavut: 0** (<https://www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection.html>).

**Compare the ten leading causes of death in Canada for 2018: Cancer: 79,536, Heart Disease: 53,134, Cerebrovascular diseases: 13,480, Accidents: 13,290, Chronic lower respiratory diseases: 12,998, Flu and pneumonia: 8,511, Diabetes: 6,794, Alzheimer’s disease: 6,429, Suicide: 3,811, Kidney diseases: 3,615** (<https://www.finder.com/ca/what-are-the-top-10-causes-of-death-in-canada>).

Our way of life is being completely changed and a huge amount of time and energy is spent on this disease while Canadians are dying constantly of major illnesses.

Cancer is always at the top of the list. In 2008, the total number of deaths from all causes in Canada was 238,612 which is 654 deaths per day. The number of deaths in 2018 due to cancer was 79,536 which is 218 per day. The “Flu and Pneumonia” deaths in 2018 were 8,511 (23 per day), which is comparable to the total “COVID-19” deaths for 2020 so far which is 8,966 so far.

**According to the official data, the number of deaths in Canada related to COVID-19 peaked in May but our whole way of life is still being changed** April 16: 183 deaths said to be “COVID-19.” May 1: 207. The number of deaths tied to COVID started going down overall after May 1 except for 222 on May 31 and 139 on June 4. On June 20 there were 64 and 51 on July 2. The numbers in July are much lower with 4 deaths on July 21, and 6 on July 31, for example. **The government via articles in the media publicized their new health care rationing, life-boat ethics policy built on the idea that the health care system was going to be overwhelmed:** “The provincial government has developed a “triage protocol” for doctors who may soon be forced to make ethically fraught decisions over how to ration critical care beds and ventilators — a policy document that will shape life-or-death choices over which patients to prioritize if hospitals become overwhelmed by the COVID-19 outbreak.” (“Ontario developing ‘last resort’ guidelines on which patients to prioritize if hospitals are overwhelmed by critical COVID-19 cases” | March 29, 2020 <https://www.thestar.com/news/canada/2020/03/29/ontario-developing-last-resort-guidelines-on-which-patients-to-prioritize-if-hospitals-are-overwhelmed-by-critical-covid-19-cases.html>)

**The health care rationing / triage protocol presented to the media is evidence that seniors in long-term care homes who became ill were kept out of hospitals:** “Under the triage protocol, long-term-care patients who meet specific criteria will also no longer be transferred to hospitals.” (“Ontario developing ‘last resort’ guidelines on which patients to prioritize if hospitals are overwhelmed by critical COVID-19 cases” | March 29, 2020: <https://www.thestar.com/news/canada/2020/03/29/ontario-developing-last-resort-guidelines-on-which-patients-to-prioritize-if-hospitals-are-overwhelmed-by-critical-covid-19-cases.html>)

**Hospitals were half empty! There was no huge surge of patients. Many Canadians stayed away from hospitals who needed to go.** Canadians were told to stay home and were afraid to go to hospitals—then they went in late, for example, with a ruptured appendix. Many nurses were not needed at all. There were almost 11,000 unoccupied beds in Canada and 53,000 surgeries were cancelled. Every week, thousands of surgeries were delayed. Ontario’s Minister of Health estimated that 35 died waiting for cardiac surgery (as of April 29, 2020) (“‘All of our rooms are empty’: Hospital ERs vacant during pandemic” by Avery Haines and Alexandra Mae Jones | CTVNews.ca | April 29, 2020 <https://www.ctvnews.ca/health/coronavirus/all-of-our-rooms-are-empty-hospital-ers-vacant-during-pandemic-1.4918208>).

**Criminals were released “because of COVID-19”:** “Judges release growing number accused of violent crimes due to COVID-19 fears” By Stewart Bell, Global News | April 8, 2020 (<https://globalnews.ca/news/6788223/coronavirus-prisons-inmates-released/>). “More than 2,000 inmates released, 6 COVID-19 cases confirmed inside Ontario jails” | April 9, 2020 (<https://www.cbc.ca/news/canada/toronto/ontario-jails-coronavirus-1.5527677>). “Senator calls for inmate release to prevent potential prison COVID-19 ‘disaster’” | March 25, 2020 (<https://www.cbc.ca/news/canada/calgary/senator-calls-release-inmates-covid-19-1.5509086>)

### **Government Laws, Emergency Orders vs. Rights & Freedoms and Economy**

Along with the federal government's new laws and regulations, the Ontario government declared a state of emergency, which they used to issue orders that were destructive of the economy and which violated the *Canadian Charter of Rights and Freedoms*.

**On March 17, 2020, the Ontario government declared a state of emergency under section 7.0.1(1) of the Emergency Management and Civil Protection Act.** The law requires two conditions: 1) “an emergency that requires immediate action to prevent, reduce or mitigate a danger of major proportions that could result in serious harm to persons or substantial damage to property” and 2) the normal resources could not be relied upon without a risk of delay. The validity of both conditions can be challenged by going through the actual facts about COVID-19. Also, is this law contrary to the Constitution and does it really give them permission to overturn Charter GUARANTEES as they did? (<https://www.ontario.ca/laws/statute/90e09#BK12>)

**The federal and provincial emergency laws and regulations violate the Canadian Charter of Rights and Freedoms.** The Charter is part of the Constitution of Canada and refers to a “guarantee of rights and freedoms.” It states: “Everyone has the following fundamental freedoms: (a) freedom of conscience and religion; (b) freedom of thought, belief, opinion and expression, including freedom of the press and other media of communication; (c) freedom of peaceful assembly; and (d) freedom of association.” (<https://laws-lois.justice.gc.ca/eng/const/page-12.html#h-40>)

**On March 23, 2020, the Canadian federal government announced a threat to enforce “social distancing” guidelines** (<https://www.cbc.ca/news/politics/trudeau-covid19-premiers-address-1.5506473>).

**On March 23, 2020 the Ontario government announced the shut-down of all “non-essential” businesses** “Speaking in Toronto, [Premier Doug Ford] said only grocery stores, pharmacies, takeout and delivery restaurants, essential manufacturing industries and supply chain suppliers — as well as the province’s liquor stores — will be allowed to remain open. A full list of businesses allowed to stay open will be released Tuesday, he said.” (<https://www.msn.com/en-ca/news/canada/covid-19-ontario-to-close-all-non-essential-businesses-three-new-cases-in-ottawa/ar-BB11Amza>). It’s notable that liquor stores stayed open—considering the potential social and health consequences of people staying home with alcohol for weeks and months. These policies, along with the unprecedented economic destruction and social isolation, are not consistent with public health.

**Contact Tracing: U.S. Legislation: Contact tracing provisions in H.R. 6800 (HEROES Act) and U.S. bill H.R.6666 (TRACE Act: COVID-19 Testing, Reaching, And Contacting Everyone)**

Quoting from H.R. 6666: Introduced May 1, 2020: “To authorize the Secretary of Health and Human Services to award grants to eligible entities to conduct diagnostic testing for COVID–19, and related activities such as contact tracing, through mobile health units and, as necessary, at individuals’ residences, . . . to trace and monitor the contacts of infected individuals, and to support the quarantine of such contacts, . . . as necessary, testing individuals and providing individuals with services related to testing and quarantine at their residences.” U.S. bill H.R. 6800 advanced further than H.R. 6666 (<https://www.congress.gov/bill/116th-congress/house-bill/6666/text> and also: <https://www.congress.gov/bill/116th-congress/house-bill/6800>).

## **COVID-19 “Vaccine” Development**

### **Health Canada approved the testing of coronavirus vaccine derived from human fetal cell line**

“The vaccine candidate Ad5-nCoV uses the HEK293 cell line (<https://www.hek293.com/>).” Alan Moy, M.D., founder and scientific director of the John Paul II Medical Research Institute and CEO of Cellular Engineering Technologies explained, “Since it’s using an adenovirus replication-defective vector, it is using HEK293.” (“Health Canada approves human trial testing of coronavirus vaccine derived from aborted fetal cell line” | May 19, 2020 <https://www.lifesitenews.com/news/health-canada-approves-human-trial-testing-of-coronavirus-vaccine-derived-from-aborted-fetal-cell-line>).

**Note that some existing vaccines already distributed to Canadians are made with human fetal tissue** (See <http://canadianliberty.com/vaccine-documents-part-2-human-cells-from-aborted-babies>).

## **Why is all of this happening? International Organizations and Private Interests**

**World Economic Forum’s Great Reset:** See “Now is the time for a ‘great reset’” by Klaus Schwab (June 3, 2020), Founder and Executive Chairman, World Economic Forum: “. . . To achieve a better outcome, the world must act jointly and swiftly to revamp all aspects of our societies and economies, from education to social contracts and working conditions. . . . The COVID-19 crisis is **affecting every facet of people’s lives in every corner of the world**. . . the pandemic represents a rare but narrow **window of opportunity to reflect, reimagine, and reset our world** . . . . one silver lining of the pandemic is that it has shown how quickly we can make **radical changes to our lifestyles**. Almost instantly, the crisis **forced businesses and individuals to abandon practices long claimed to be essential, from frequent air travel to working in an office.**” They describe a surveillance economy of testing, tracing and measuring compliance: “. . . creating incentives for industries to improve their track record on environmental, social, and governance (ESG) metrics. . . to harness the innovations of the *Fourth Industrial Revolution* [**title of Schwab’s 2016 book**] to support the public good, . . . During the COVID-19 crisis, companies, universities, and others have joined forces to develop diagnostics, therapeutics, and possible **vaccines**; establish **testing** centers; create mechanisms for **tracing** infections; and deliver telemedicine. . . .” (<https://www.weforum.org/agenda/2020/06/now-is-the-time-for-a-great-reset/>)

### **World Health Organization (WHO): COVID-19 Policies Credibility & Human Rights Concerns**

**WHO Calls for Removing Family Members:** During a World Health Organization press conference on March 30, 2020, Dr. Michael Ryan, the Executive Director of WHO’s Health Emergencies Program called for going door to door during the COVID-19 lock-down to “look in families to find those people who may be sick and remove them and isolate them . . .” “. . . and the most likely person to become a case is someone who has been a significant contact of another case. And at the moment, in most parts of the world, due to lock-down, most of the transmission that’s actually happening in many countries now is happening in the household at family level. In some sense transmission has been taken off the streets and pushed back into family units. **Now we need to go and look in families to find those people who may be sick and remove them and isolate them** in a safe and dignified manner. . . .” (46:20 to 50:50: <https://www.youtube.com/watch?v=2v3v1w14NbM> | WHO YouTube channel).

**Dr. Ryan** joined WHO in 1996 and has also worked with the Gates Foundation

- The Amhara Professionals Union and others have accused the WHO Director General, and the government and political party he belonged to, of targeting the Amhara people for depopulation using various methods (including those relating to nutrition and health care)—including the coercive use of injectable “contraceptives” which caused permanent infertility among many Amharic women (<https://www.ambapu.org/article/about-us>, <http://nazret.com/blog/index.php/2015/03/24/ethiopia-three-million-amara-missing>, <https://www.youtube.com/watch?v=ndSzSPskwAw>, [https://ecadforum.com/wp-content/uploads/2017/04/APU\\_opposes\\_candidacy\\_of\\_Dr\\_TAG.pdf](https://ecadforum.com/wp-content/uploads/2017/04/APU_opposes_candidacy_of_Dr_TAG.pdf), <https://borkena.com/2017/05/20/top-ten-reasons-tedros-adhanom-totally-unfit-head-achameleh-tamiru/>, <https://ecadforum.com/2014/11/13/real-socio-political-crisis-is-looming-in-east-africa-ethiopia/>, <https://borkena.com/2017/10/31/amhara-the-brutal-reality-of-ethiopia/>, <https://www.youtube.com/watch?v=BdqCctSfa4>, <https://www.ambapu.org/sites/default/files/2017-02/BahirDarTanneriesandCrimesAgainsttheAmharaPeople.pdf>, <https://www.youtube.com/watch?v=ACemjDrv4fw>).

(Links accessed April 15, 2020)

- **The Bill & Melinda Gates Foundation has been a major contributor to the World Health Organization year after year (from 2009 and earlier) to 2020** For the 2016-2017 budget, for example, the top two contributors were the USA and the Gates Foundation –with the rest of the top 20 donors (*all nations*) contributing much less than the Gates Foundation. (<https://www.gatesfoundation.org/How-We-Work/Quick-Links/Grants-Database#q/k=world%20health%20organization>, <https://www.who.int/images/default-source/infographics/budget/top-20.jpg>).

- **Robert F. Kennedy Jr.** has highlighted criticism of Gates’ record and WHO, including the Gates Foundation’s history of vaccine injuries (<https://www.instagram.com/robertfkennedyjr/>, <https://childrenshealthdefense.org/news/government-corruption/gates-globalist-vaccine-agenda-a-win-for-pharma-and-mandatory-vaccination/>)
- **All of the following examples illustrate why the principle of INFORMED CONSENT regarding vaccines is critical for our protection.**
- The Gates Foundation funded a campaign to eradicate polio. As a result of this campaign, from 2000 to 2017, in India, there were estimated to be an additional 491,000 cases of children with **non-polio acute flaccid paralysis caused by the vaccine**. In February 2017, **the Indian government cut ties with the Gates Foundation** and ended its control over the National Technical Advisory Group on Immunization

- There have been outbreaks of **vaccine-derived polio** elsewhere:

- In 2009, there were Gates Foundation funded tests of **experimental HPV vaccines** on 23,000 girls in India and 1,200 suffered severe side effects. **The Indian parliament investigated.**

- The above article also discusses **Depo Provera (DMPA)** and its side effects, including sterilization. The following document mentions that this drug has been used in Ethiopia and many countries: <http://www.1037thebeat.com/wp-content/uploads/2013/06/DEPO-PROVERA-DEADLY-REPRODUCTIVE-VIOLENCE-Rebecca-Project-for-Human-Rights-June-2013-2.pdf>
- A Gates-funded experimental **malaria vaccine** was tested in which 151 children died. Serious

adverse events occurred in 1,048 out of 5,949 children  
(<https://www.nejm.org/doi/full/10.1056/nejmoa1102287>).

- During Gates' MenAfriVac campaign in 2010, there were reports of the **meningitis vaccine** being forced on African children with many cases of paralysis resulting.

- In 2010, Gates made a \$10 billion donation to WHO and called for a decade of vaccines.  
[https://www.gatesfoundation.org/Media-Center/Press-Releases/2010/01/Bill-and-Melinda-Gates-Pledge-\\$10-Billion-in-Call-for-Decade-of-Vaccines](https://www.gatesfoundation.org/Media-Center/Press-Releases/2010/01/Bill-and-Melinda-Gates-Pledge-$10-Billion-in-Call-for-Decade-of-Vaccines).  
In the same year, he presented a **TED Talk on “Innovating to Zero” about human population and carbon** (<https://www.youtube.com/watch?v=JaF-fq2Zn7I>) in which he referred to vaccines.
- In 2014, Kenyan doctors accused WHO of chemically sterilizing millions of unwilling Kenyan women with a “**tetanus**” vaccine campaign. Labs found a sterility formula in every vaccine tested which had been developed for contraception in the 1990s. The same types of incidents were reported in the 1990s also.

- A 2017 study shows that WHO's **DTP vaccine** kills more African children than the diseases it prevents, with vaccinated girls suffering ten times the death rate of unvaccinated children  
(<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5360569/>)

## **Statements**

Speak up for your rights and freedoms—our future. Make your own statement and share with politicians (<http://canadianliberty.com/about-covid-19-policies-contact-canadian-politicians-and-other-officials/>), other officials and everyone else you can think of.

Tyranny was sold to us using COVID-19. Rights and freedoms provide safety. We are not accepting a trashed economy, isolation, muzzles, immunity passport manacles or brands, and forced injections. We are not betraying the privacy of ourselves or our contacts, including family and friends.

### **Defend Rights, Say NO!**

We are not letting you into our homes to poke us and label us and take people away.

We are not letting you slap a badge, bracelet or tattoo on us.

We are not letting you track and monitor our contacts!

We are not impressed with your exaggerated, fear-mongering, erroneous predictions, your manipulation of statistics and death certificates, your shutting down of the economy, your weird social isolation measures, your half-empty hospitals and your cancellation of medical treatments.

We assert the right to informed consent for every injected product.

We are not taking your DNA/RNA vaccines.

We are not impressed with the outrageous vaccine damage you caused in India and elsewhere.

We are keeping our God-given, natural, inherent rights and freedoms.
