

COVID VACCINES

Part of the suppressed truth can be seen in this report published by **Public Health Ontario**, “**Adverse Events Following Immunization (AEFIs) for COVID-19 in Ontario**” (<https://www.publichealthontario.ca/-/media/documents/ncov/epi/covid-19-ae-fi-report.pdf>). A recent update is for “December 13, 2020 to May 21, 2023.” Heart injuries are among the many adverse events included in this report:

*There have been international reports, including from the United States and Israel, of **myocarditis (inflammation of the heart muscle) and pericarditis (inflammation of the lining around the heart) following vaccination with COVID-19 mRNA vaccines**. Information to date indicates that these events occur ... mainly in adolescents/young adults ... (p. 12)*

The May 21, 2023 AEFIs report lists **833 cases of myocarditis in Ontario** along with many other adverse reactions. Summarizing, for Ontario, Table A1 (p. 23) for all COVID vaccine products:

Other severe or unusual events: 6,445; Allergic skin reactions: 5,169; Pain/redness/swelling at the injection site: 4,017; Rash: 2,440; Anaesthesia/paraesthesia: 1,839; Adenopathy/lymphadenopathy [swelling of glands / lymph nodes]: 1,296; Arthritis/arthralgia: 1,090; Fever in conjunction with another reportable event: 1,039; Severe vomiting/diarrhea: 1,023; Myocarditis [inflammation of the heart] / pericarditis: 833; Event managed as anaphylaxis [life-threatening allergic reaction]: 511; Coagulation disorder (including thrombotic events) [blood clots]: 450; Bell's Palsy [facial paralysis]: 345; Syncope (fainting) with injury: 343; Cellulitis [potentially serious bacterial skin infection]: 282; Acute cardiovascular injury: 242; Convulsions/seizure: 167; Thrombocytopenia [low blood platelet count]: 93; Nodule: 88; Paralysis: 51; Anosmia, ageusia [loss of sense of smell/taste]: 45; Guillain-Barré syndrome (GBS) [“rapid-onset muscle weakness caused by the immune system damaging the peripheral nervous system”]: 44; Acute liver injury: 38; Oculorespiratory syndrome (ORS): 28; TTS [thrombosis with thrombocytopenia syndrome] / VITT [vaccine-induced immune thrombotic thrombocytopenia]: 28; Acute kidney injury: 27; Myelitis/transverse myelitis [inflammation of the spinal cord]: 25; Single organ cutaneous vasculitis [inflamed blood vessels in the skin]: 22; Subacute thyroiditis: 21; Chilblain-like lesions: 18; Acute pancreatitis: 16; Rhabdomyolysis [“serious medical condition . . . damaged muscle tissue releases its proteins and electrolytes into the blood”]: 16; Erythema multiforme [target-like skin lesions on the hands]: 15; Multisystem inflammatory syndrome in children/adults [“different body parts become inflamed, including the heart, lungs, kidneys, brain, skin, eyes, or gastrointestinal organs”]: 14; Encephalopathy/encephalitis [brain disease / inflammation]: 13; Infected abscess: 8; Parotitis [inflammation of the salivary glands]: 7; Acute respiratory distress syndrome: 5; Kawasaki Disease [“blood vessels become inflamed throughout the body”]: 4; Sterile abscess: 4; Vaccine-Associated Enhanced Disease: 3; Meningitis [“acute or chronic inflammation of the protective membranes covering the brain and spinal cord”]: 3; Acute disseminated encephalomyelitis (ADEM) [“sudden, widespread attack of inflammation in the brain and spinal cord”]: 1

The report only acknowledges 38 reports of deaths in Ontario (p. 13) which is very doubtful. Regardless of whether the numbers are near correct, considering the consequences for many, it's astonishing that someone would coerce these injections.

Article 6 – Consent "1. **Any preventive, diagnostic and therapeutic medical intervention is only to be carried out with the prior, free and informed consent of the person concerned, based on adequate information.** ..."

Liability protection: "The government has confirmed that coronavirus vaccine manufacturers are protected from liability" <https://globalnews.ca/news/7521148/coronavirus-vaccine-safety-liability-government-anand-pfizer/>

Compensation Program: CBC, January 6, 2023 "\$2.8 million paid out so far by Vaccine Injury Support Program" <https://www.cbc.ca/news/canada/british-columbia/covid-19-vaccine-injuries-compensation-canada-1.6704655> "A program designed to compensate Canadians for vaccine injuries has paid out \$2.779 million since it started accepting claims 19 months ago." "According to the Vaccine Injury Support Program (VISP) website [<https://vaccineinjurysupport.ca/en/program-statistics>], 50 of 1,299 claims submitted so far have been approved, with 18 rejected claims under appeal as of Dec. 1, 2022. Claims are approved when a medical review board determines a probable link between a recent Health Canada-authorized vaccine and "serious and permanent injury."

Conclusion: All citizens have responsibilities to their fellow human beings. All citizens of Canada, everyone, politicians included of all parties, officials, business owners, professionals of all kinds, and all members of the public need to be aware of the ongoing harm caused by these substances, which were coerced--which is illegal--and they need to act appropriately.

The circumstances and policies leading up to these substances being administered are also highly questionable under the *Criminal Code* (<https://laws-lois.justice.gc.ca/eng/acts/c-46/FullText.html>).

Current and future public-private policies need to be challenged when they seek to invade our privacy, control our spending, or violate our freedom of conscience and other rights (<https://laws-lois.justice.gc.ca/eng/const/page-12.html#h-40>).
